

EN INFORMATION NOTICE REGULATION (EU) 2023/2854 DATA ACT

1. Introduction

Lindab Sales CZ s.r.o. provides decentralized Mechanical Controlled Ventilation units LINDAB DRJ APP (hereinafter the “Product”), which can be remotely controlled via dedicated App (hereinafter also the “Related Service”).

With this notice, issued pursuant to Regulation (EU) 2023/2854 (“Data Act”), Lindab Sales CZ s.r.o. intends to provide information regarding the data generated by the Product and the App, the methods of accessing such data, and the user’s rights in relation to such data.

2. Products

Reference is made to all products controllable via the dedicated applications owned by Lindab Sales CZ s.r.o.

3. Data generated by the Product

During operation, the Product may generate the following data:

Types of Product Data

- TEMPORARY DATA

- 1) Identification and connection data:

- a. device serial number;
- b. device type/model;
- c. communication session identifier;
- d. date/time of last communication.

- 2) Device status and operation data:

- a. active operating mode;
- b. fan speed; humidity level setting;
- c. measured values (temperature, humidity, air quality);
- d. status information/alerts (humidity alarm, filter status, night mode/night alarms, light level detected, signal strength, scheduling status).

- STORED DATA

Device firmware versions: radio firmware, microcontroller firmware, radio control firmware.

Format

Compact binary messages with a fixed 8-byte header (message type + device type + serial number) and variable body size (1/2/4 byte) based on message type.

Estimated volume

Approximately 179 kB/day per device.

Continuity of data generation

Operational data are generated continuously in real time. Identification data are generated only during initial configuration or reset.

Storage location and retention period

Temporary data are stored in device RAM and deleted upon shutdown or restart. Stored data are saved in Lindab Sales CZ s.r.o. servers and deleted upon account removal.

Access methods

Data can be accessed in real time via the dedicated mobile applications (iOS and Android) through Wi-Fi.

4. Related Service Data

Products can connect to mobile devices and be managed through dedicated App, allowing users to :

- configure and manage the products
- monitor and view data of the products.

In addition to the product data transmitted, in the context of providing the Related Service, data relating to the use of the App and the operation of the Products are generated, including:

- TEMPORARY DATA
 - 1) User commands (Change of operating mode, change of fan speed, setting of the desired humidity level, configuration of the light sensor, activation of “scheduled” mode, device restart/reset, filter reset);
 - 2) security/authentication tokens (access tokens for authentication, temporary tokens for operation such as registration confirmation or password recovery or email change);

3) device-user association data.

- STORED DATA

1) User data (email, protected password, name, account data, preferences).

2) Home data (name, address/coordinates, time zone).

3) Zones and rooms (home areas, rooms, connections between rooms and areas).

4) Installed products data (for each product associated with the user: serial number, type/model, name assigned by the user, association with the room/zone, role, installation data/time, firmware versions)).

5) Scheduling data.

Temporary data are stored in RAM; stored data are held on Lindab Sales CZ s.r.o. server.

5. Data sharing with third parties

Requests to share data with third parties designated by the user may be submitted via email to personalni_sales@lindab.com.

6. Data security

Appropriate technical and organizational measures are implemented, including encryption, access control, logging, backup, and disaster recovery.

7. User rights

Users have the right to access, portability, rectification, erasure, restriction of processing, and objection to marketing or profiling. No profiling activities are carried out.

Requests may be sent to: personalni_sales@lindab.com.

8. Data Controller

The Data Controller is Lindab Sales CZ s.r.o., headquartered in Na hůrce 1081/6, 161 00 Praha 6, Czech republic (email: personalni_sales@lindab.com).

Data may be used to resolve reported malfunctions.
